

Index

All places are in Kent, unless there is some indication to the contrary. Among places in Kent, parish names are distinguished by bold type: every parish church existing at the end of the thirteenth century is listed in this index, even if the place goes unmentioned in the body of the book.

This is not an index to the DB text for Kent. The reader who requires such an index will find one at the end of any of the previous editions of DB-Ke (Larking 1868, Kirke 1932, Morgan 1983, Williams and Martin 1992); the reader who would like to have a copy of the PDF file for chapter 4 has only to ask me for it.
